

# HealthData@EU

*As is today – heterogeneous, fragmented, cost-inefficient, redundant, not sustainable*

*To be with HealthData@EU – structured, harmonised, cost-efficient, integrated, scalable and sustainable*

# MyHealth@EU

MyHealth@EU is the existing infrastructure that connects healthcare providers in 11 Member States. It allows them to exchange health data such as Patient Summaries and ePrescriptions. These services will be expanded to include lab results and other types of health data.
